

HONOLULU, HAWAII TERRITORY, THURSDAY, JULY 22, 1909.

"For over 50 years I have always kept Ayer's Cherry Pectoral in the house. My father often told me that it saved my life when I was very young."

In thousands of homes Ayer's Cherry Pectoral is a household word. It has been used first by the grand-
parents, then by the parents, and now by the children. For colds and coughs, croup, bronchitis, la grippe, inflammation in the throat or in the bronchial tubes,

Ayer's Cherry Pectoral

is the standard remedy the world over. It contains no narcotic or poison. Accept no substitute. Put up in large and small bottles.

JUDGE ANDRADE'S FINDINGS IN THE ATCHERLEY CASE

Why the District Magistrate Saw Fit to Commit the Polt-geist Victim to the Insane Asylum.

I, Frank Andrade, District Magistrate of the District of Honolulu, City and County of Honolulu, Territory of Hawaii, do hereby certify that in the above entitled matter on the 20th day of July, 1909, after a full examination, I found the said John Atcherley to be an insane person and unsafe to be allowed at large; and thereupon ordered and adjudged that the said John Atcherley is insane, and that it would be unsafe to allow him to be at large, a copy of which judgment marked Exhibit "A," is hereto attached and made a part of this certificate.

And I further certify that the facts upon which said judgment is based are briefly as follows:

That the said John Atcherley is insane and suffering from the form of insanity known as paranoia. He has systematized delusions of persecution and believes that he is the object of evil designs of other persons; that his plans are thwarted and he is unjustly dealt with. That he is tormented by unknown and unseen foes. His suspicions have to an extent fastened upon particular persons, viz: Doctors Wayson and Brinkerhoff, Chester Doyle and John W. Cathcart. These persons with others, he believes, are tormenting him by making strange and peculiar noises around his premises, by using bad language and by threatening him. The object of the persecution is to compel him to disclose a secret remedy which the said John Atcherley believes that he has discovered for the disease of leprosy, so as to deprive him of the credit and glory of such discovery, and to appropriate such credit and glory to themselves; that the persecution is carried on by an organized "gang," who concealed confederates and agents in his, Dr. Atcherley's, house for the purpose of overhearing what the said John Atcherley says, and for the purpose of making strange and inexplicable noises; that such persecution has continued for the past months, and that the said John Atcherley has suffered indescribable torture. That the said John Atcherley believes other physicians in this Territory have been secretly made away with, and that he fears that he will be made away with. As illustrative of such delusions, and as indicating the way in which the persecution is being carried on, said John Atcherley reduced to writing his beliefs and ideas in a signed letter which he handed to Walter G. Smith, Esq., Editor of the "Advertiser," a copy of which letter, marked Exhibit "B," is hereto attached and made a part of this statement of facts. That such delusions of persecution are insane delusions, inherently impossible, and without foundation, as the evidence shows, in fact.

That it is unsafe to allow said John Atcherley to be at large, as it appears that in January of this year, believing that Dr. Wayson was persecuting him, he fired several shots from a revolver at and into the house of said Dr. Wayson at an early hour in the morning when Dr. Wayson, his wife and two small children were sleeping therein. That it appears that said John Atcherley has a shot gun with which he has threatened to shoot and kill persecutors, and more particularly Chester Doyle.

The above facts appear from the evidence adduced on the examination of said John Atcherley, and my judgment is based thereon and upon the opinions of four physicians who, after examining the said John Atcherley and acquainting themselves with the facts, declared the said John Atcherley to be, in their opinion, an insane person suffering from paranoia and dangerous to the community if allowed to go at large.

(Signed) FRANK ANDRADE,
District Magistrate of Honolulu, City and County of Honolulu, Territory of Hawaii.

Dated July 20, 1909.
To the Chairman of the Commissioners of Insanity.

District Court of Honolulu, City and County of Honolulu, Territory of Hawaii.

In the Matter of the Examination of John Atcherley, an Alleged Insane Person.

Judgment.

Whereas, on the 15th day of July, 1909, W. P. Jarrett, Sheriff of the City and County of Honolulu, Territory of Hawaii, made a written complaint ver-

fied by his oath before the District Magistrate of Honolulu aforesaid, that he believed the above named John Atcherley to be insane, and that his being at large is dangerous to the safety of the community, and thereupon a warrant having issued, the said John Atcherley was taken into custody on said 15th day of July, 1909, for the purposes of examination as by law provided; and

Whereas, on the 17th day of July, 1909, and within forty-eight hours after the arrest of said John Atcherley, an examination as to the sanity of the said John Atcherley was duly held before me, the District Magistrate of the District of Honolulu aforesaid, within which district said John Atcherley resided; the said John Atcherley appearing in person and declining to procure counsel, and John W. Cathcart, Esq., City and County Attorney, appearing on behalf of the Territory of Hawaii at such examination, and witnesses being examined and the case submitted on behalf of the Territory of Hawaii, and the examination being thereupon continued at the request of the said John Atcherley to the 18th day of July, 1909, and a further hearing therein had, and thereupon at the request of the said John Atcherley being further continued until the 20th day of July, 1909, and the said John Atcherley having procured witnesses on his behalf at such hearings, and having introduced all the evidence he desired and the above matter having been thereupon submitted.

Now therefore, after full consideration of all the evidence in the case, I find said John Atcherley to be insane and that it would be unsafe to allow him to be at large.

And it is hereby ordered and adjudged that the said John Atcherley is insane, and that it would be unsafe to allow him to be at large.

And it is further ordered and adjudged that the said John Atcherley be detained in the Insane Asylum at Honolulu until he shall become sane or shall be discharged as by law provided.

Dated July 20, 1909.
(Signed) FRANK ANDRADE,
District Magistrate of Honolulu, City and County of Honolulu, Territory of Hawaii.

OH, PROMISE ME.

"Oh, promise me that when you get the tin, you'll buy an auto car and we will spin; we'll wander up and down the boulevard, and when we hit the pike we'll strike it hard; we'll see the wheels go 'round and sulphur roll, as each man we run down relieves his soul by swearing long and loud and deep and free. Oh, promise me. Oh, promise me. Oh, promise me that you will hold my hand, as we go scorching through Fredonia's land; we'll make the rubbernecks just hold their breath, and dodge us as they would the jaws of death. But should the blame thing break, what would we do? Say, love, you'd better buy a horse or two—a nice 2-13 roadster, fine would be. Oh, promise me. Oh, promise me."—Fredonia, Kas., Citizen.

Fumed Oak.

For Bungalow furnishings, or for any of the pretty, small homes for which Honolulu is becoming famous, there is nothing richer, more substantial or more lasting than.

FUMED OAK FURNITURE

We have featured this line of goods for the past year and are now carrying more of it than has ever been shown here before. For several weeks we have been busy opening up many shipments of Fumed Oak Arts and Crafts furniture and are now prepared to show anything which can be used in dining room, livingroom, or parlor in this popular finish.

The Fumed Oak finish on furniture is different from any other in that the stain is put on with acids and thus goes into the wood so far that it will not wear off or wear white on the edges with use.

We have a large line of dining sets, arm rockers, Morris chairs, reception chairs, and other odd pieces of furniture in this wood. See the line while it is complete.
